01: Horizontal photos in Gallery are shown pressed to the top of the page during slideshow

Horizontal photos in Галерея are shown pressed to the top of the page during slideshow

🔗 Attach   🔗 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🌐 presBeton.site

2. Open "Галерея" in the navigation menu.

Steps to reproduce:

1. Click on any horizontal photo in the "Галерея".

2. Examine the position of a photo on the screen.

**Actual result:** A horizontal photo is pressed to the top of the page, leaving too much of space to the bottom.

Expected result: A horizontal photo is aligned to center vertically, with equal distance to the top and bottom of the page.

Severity	Minor
Priority	= Medium

02: Vertical photos in Галерея get cropped in the bottom during slideshow

Vertical photos in Галерея get cropped in the bottom during slideshow

📎 Attach   🕸 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🕷 presBeton.site
2. Open "Галерея" in the navigation menu.

Steps to reproduce:

1. Click on any vertical photo in "Галерея".
2. Examine the position of a photo on the screen.

Actual result: A vertical photo is pressed to the top of the page and is shown to a user being cut down from the bottom.

Expected result: A vertical photo is aligned to center vertically, with equal distance to the top and bottom of the page, and is shown in its full size without being cropped.

Severity	Minor
Priority	= Medium

03: "Close" button is situated differently on the photos of different sizes in Gallery

"Close" button is situated differently on the photos of different sizes in Gallery

🔗 Attach   🖧 Add a child issue   🔗 Link issue   ∨   •••

Description

Preconditions:

1. Navigate to 🐾 presBeton.site

2. Open "Галерея" in the navigation menu.

Steps to reproduce:

1. Click on any photo in the "Галерея".

2. Examine the position of a "Close" button.

Actual result: "Close" button is either situated outside the photo, or is placed in the upper right corner. "Close" button should be put outside the photo, preferably in the upper right corner of the slideshow mode so that the size of a photo wouldn't affect the location of the button.
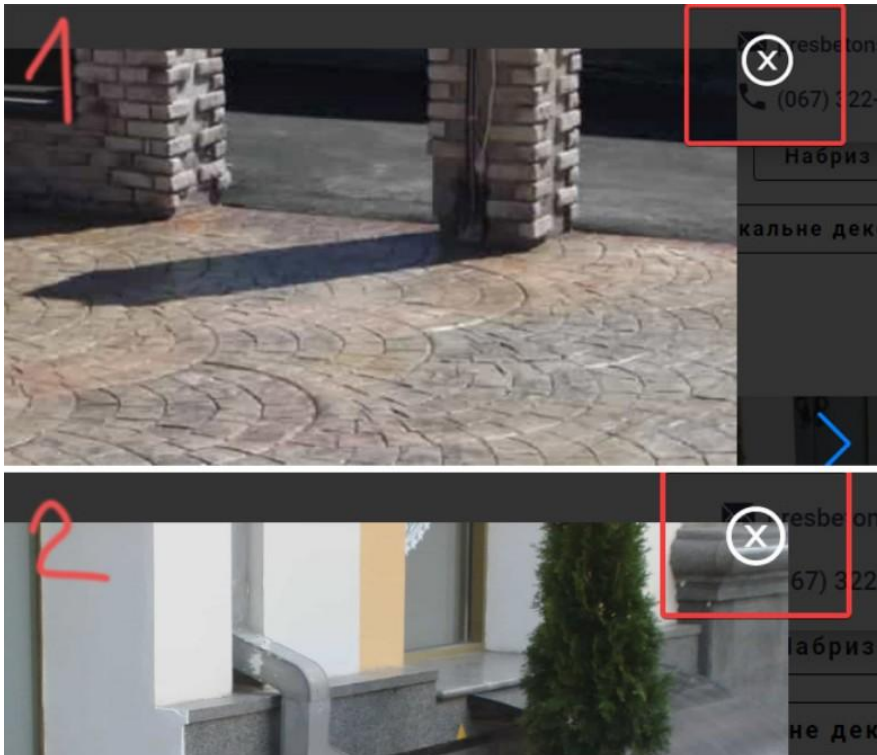

**Expected result:** "Close" button is located on the same spot regardless of the size of the photo.

Severity	Minor
Priority	= Medium

04: Photo in Gallery is not closed by click on backdrop

Photo in Галерея is not closed by click on backdrop

Attach   Add a child issue   Link issue   ⌄   ...

Description

Preconditions:

1. Navigate to presBeton.site
2. Open "Галерея" in the navigation menu.

Steps to reproduce:

1. Click on any photo in "Галерея".
2. Click on the backdrop to close the photo.

**Actual result:** There is no reaction on the backdrop click, photo does not close.

Expected result: A photo is closed, "Галерея" page is displayed.

Severity	Minor
Priority	= Medium

05: Contact information links do not change the color when hovered over on the Contact page

Contact information links do not change the color when hovered over on the Contact page

Attach   Add a child issue   Link issue   ⌄   ...

Description

Preconditions:

1. Navigate to presBeton.site

Steps to reproduce:

1. Open any site version.
2. Open "Контакти"/"Контакты" page.
3. Hover the mouse cursor over the phone numbers.
4. Hover the mouse cursor over the email address.

Actual result: When hovered over, mouse cursor changes to mouse pointer, but no color change happens upon hover, although phone numbers and email address are links.

Expected result: Phone numbers and email address are links. Therefore, when hovered over, mouse cursor changes to mouse pointer and the link changes color to indicate the hover.

Severity	Minor
Priority	= Medium

06: Orthographic mistake in the text on Контакти page on the Ukrainian version

Orthographic mistake in the text on Контакти page on the Ukrainian version

📎 Attach   🔗 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🕸 presBeton.site
2. Choose the Ukrainian version.

Steps to reproduce:

1. Click on "Контакти" in the navigation menu.
2. Scroll down to the bottom of the page.
3. Examine the timetable information.

Actual result: Text misspells word "Працюємо" by writing it as "Працюемо", and uppercase letter "З" staying next to the digits may make a user thinking it's not a letter but a digit. It's better to make a letter lowercase in order to not confuse a user.

Expected result: Text says: "Працюємо без вихідних з 09:00 до 21:00"

Severity	Minor
Priority	⌄ Lowest

🕐

Працюемо без вихідних
З 9:00 до 21:00

07: Orthographic and syntax mistakes in the text in Feedback forms on Контакти page on both site versions

Orthographic and syntax mistakes in the text in Feedback forms on Контакти page on both site versions

🔗 Attach   🔀 Add a child issue   🔗 Link issue   ⌄   ⋯

Description

Preconditions:

1. Navigate to 🐾 presBeton.site

Steps to reproduce:

1. Open any site version.
2. Open "Контакти"/"Контакты" page.
3. Examine the headings in the "Форма зворотного зв'язку" and/or "Форма обратной связи".

Actual result: Text is hard to read, and full of mistakes. There's a mistake in spelling word: 'напряму", as it should be written as one word, and the dot between the sentences is not to be used here. The text should be split into two sentences for better comprehension. It could be the following: "Ви зацікавилися, або у вас залишилися питання? Зв'яжіться з нами напряму за вказаними нижче контактами або скористайтеся нашою формою зворотного зв'язку".

Expected result: Text is clear and easy to read. It says: "Якщо ви зацікавилися, або у вас залишилися питання, зв'яжіться з нами напряму за вказаними нижче контактами або скористайтеся нашою формою зворотного зв'язку".

Severity	Minor

Priority   Medium

КОНТАКТИ

Якщо ви зацікавились, чи у вас залишились питання. Зв'яжіться з нами на пряму по вказаним нижче контактам, або скористайтесь нашою формою зворотного зв'язку.

08: Feedback form in English on the Ukrainian and Russian site versions

Feedback form in English on the Ukrainian and Russian site versions

Attach | Add a child issue | Link issue | ⌄ | ...

Description

Preconditions:

1. Navigate to 🌐 presBeton.site
2. Choose the Ukrainian version of the site.

Steps to reproduce:

1. Click on "Контакти" in the navigation menu.
2. Examine the "Форма зворотного зв'язку" in the page.
3. Switch to the Russian version of the site.
4. Examine the "Форма обратной связи" in the page.

Actual result: Fields names and placeholders of the "Форма зворотного зв'язку" and "Форма обратной связи" remain in English despite the language chosen on the site.

Expected result: Fields names and placeholders of the "Форма зворотного зв'язку" and "Форма обратной связи" change according to the site language chosen.

Severity	Minor
Priority	= Medium

09: Languages drop-down list does not have hover properties and does not open by click on down arrow icon

Languages drop-down list does not have hover properties and does not open by click on down arrow icon

🔗 Attach   🔀 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

   1. Navigate to 🕸 presBeton.site

Steps to reproduce:

   1. Click on Language switcher's down arrow icon in the Header to reveal the list of languages.

Actual result: Drop down list arrow icon is not clickable as expected. Instead, a user should click on globe to open the list of languages. Where to click is not an obvious fact since the mouse cursor does not change to the mouse pointer. Globe and arrow icons should be both clickable.
Expected result: When a user hovers over the language switcher, the mouse cursor changes to the mouse pointer. Click on down arrow icon expands the list of languages to choose from.

Severity   Minor

Priority   ⌄   Low

10: Languages drop-down list remains open if no action has been done to it

Languages drop-down list does not close by itself if no action has been done to it

🔗 Attach   🔀 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

   1. Navigate to 🕸 presBeton.site

Steps to reproduce:

   1. Click on Language switcher's down arrow icon in the Header to reveal the list of languages.

Actual result: Languages drop-down list can be only closed by click outside the list, it does not close by itself so the list remains open if user does other actions on the site.

Expected result: If a user opens languages drop-down list, but does not choose anything, the list can be closed by click outside the list, or the list can automatically close in a few seconds by itself.

Severity   Minor

Priority   =   Medium

11: Default chosen category button is not displayed as active on "Продукція"/"Продукция" page in both site versions

Default chosen category button is not displayed as active on "Продукція"/"Продукция" page on both site versions
Attach   Add a child issue   Link issue

Description

Preconditions:

1. Navigate to   presBeton.site

2. Open "Продукція"/"Продукция" page on any site version.

Steps to reproduce: Pay attention to the categories buttons on the page.

Actual result: The relevant article "Декоративний бетон"/"Декоративный бетон" is shown on the page, but the corresponding category button is not highlighted and is not shown active on the page to show which category a user is on right now.

Expected result: By default, "Декоративний бетон"/"Декоративный бетон" category is chosen, and the relevant article about it is shown on the page. The corresponding category button is highlighted in gray.

Severity	Minor
Priority	⌄ Low

12: Russian language page after refresh switches back to Ukrainian language

Russian language page after refresh switches back to Ukrainian language

📎 Attach   🔗 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🌐 presBeton.site

2. Choose the Russian version of the site.

Steps to reproduce:

1. Open any page - "Главная", "Продукция", "Галерея", "Контакты".

2. Refresh the page by pressing F5 or Refresh button in the browser.

Actual result: After refresh, the site switches back to the Ukrainian version.

Expected result: The page and site overall remain in the language chosen by a user.

Severity   Major

Priority   =   Medium

13: Orthographic mistake in the text on "Продукція"/"Продукция" page on both versions of the site

Orthographic mistake in the text on "Продукція"/"Продукция" page on both versions of the site

📎 Attach   🗂 Add a child issue   🔗 Link issue   ▾   •••

Description

Preconditions:

1. Navigate to 🪟 presBeton.site
2. Choose any version of the site.
3. Open "Продукція"/"Продукция" page.

Steps to reproduce:

1. Examine the "Декоративний набризок" / "Декоративный набрызг" category.
2. Scroll down to the bottom of the page.
3. Examine the timetable information.

Actual result: In the Ukrainian version, the heading of the article is written with mistake as "Декоративний набризк" and does not correspond to the button name. In the Russian version, the heading of the article is written with a mistake as "Декоративный набрызк" while button reads: "Декоративный набрызг".

Expected result: In the Ukrainian version, "Декоративний набризок" category is identical to the heading of the article below. In the Russian version, button and heading should have the same name as follows: "Декоративный набрызг"

Severity	Minor

ПРОДУКЦІЯ

Декоративний бетон	Декоративний набризок	Вертикальне декорування

ДЕКОРАТИВНИЙ НАБРИЗК

Набризк на бетонне покриття - це унікальний матеріал, який може перетворити звичайний бетон на витвір мистецтва.

Ось кілька причин, чому варто замовити набризк на бетонне покриття:

14: Orthographic mistakes in the text on the "Головна" page on the Ukrainian version

Orthographic mistakes in the text on the "Головна" page on the Ukrainian version

📎 Attach   🔗 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🔗 presBeton.site
2. Choose Ukrainian version of the site.
3. Open "Головна" page.

Steps to reproduce:

1. Scroll down to the bottom of the page.
2. Examine the text about the company.

Actual result: The text contains orthographic mistakes in two sentences: "Працюемо лише з якісними матеріалами" and "Висока якість віготовлення".

Expected result: The text says: "Працюємо лише з якісними матеріалами" and "Висока якість виготовлення".

Severity	Minor
Priority	≫ Lowest

✓ Ми майстри своєї справи

Pagination bullets blend with the photo in the banner slideshow on the "Головна" page

📎 Attach   🖧 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🌐 presBeton.site

Steps to reproduce: 1. Click on pagination bullets to go to another photo in the banner slideshow.

2. Examine the pagination bullets on the last fourth slide.

Actual result: Pagination bullets are not seen on the fourth photo of the slideshow. The photo or the color of the pagination bullets should be changed. For better convenience of a user, right and left arrow icons should be added so a user could choose the way of switching between the slides.

Expected result: Pagination bullets should be clearly visible on any photo in the banner.

Severity   Minor

Priority   ⌄   Low
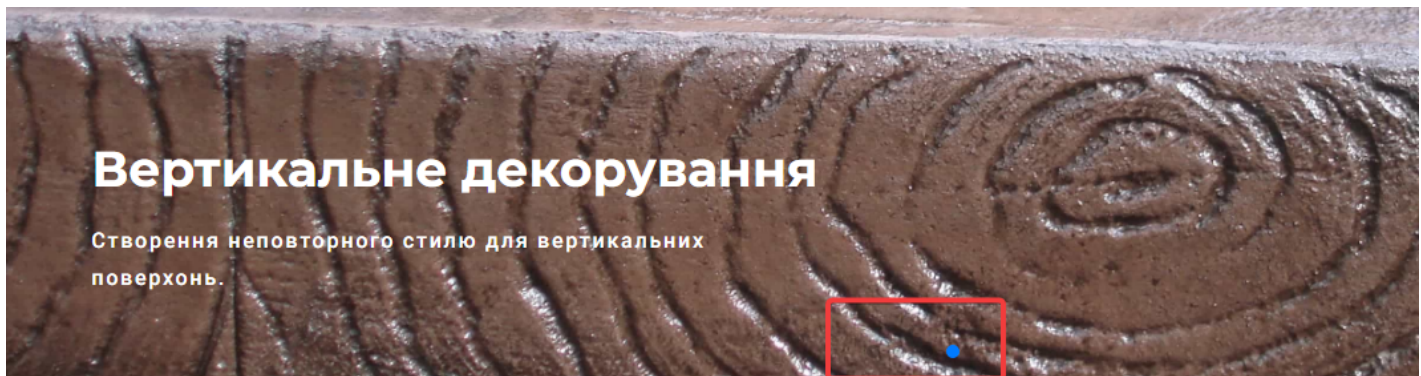

17: Photos of different categories are situated differently on the screen in Галерея

[Regression] Photos of different categories are situated differently on the screen in Галерея

🖇 Attach   🗂 Add a child issue   🔗 Link issue   ⌄   •••

Description

Preconditions:

1. Navigate to 🕸 presBeton.site
2. Open "Галерея" in the navigation menu.

Steps to reproduce:

1. Open any category among the following: "Заїзд в гараж/Парковка", "Відмостка", "Бассейн", "Тераса", "Вертикальне декорування", "Стикування різних штампів".
2. Open any photo and go through the Gallery by pressing on right or left arrow icon.
3. Examine the position of a photo on the screen.
4. Open any category among the following: "Сходи", "Поріг", "Парапет", "Доріжки", "Набриз", "Покрокові доріжки", "Індивідуальний виріб".
5. Open any photo and go through the Gallery by pressing on right or left arrow icon.
6. Examine the position of a photo on the screen.

Actual result: In one group of categories, a horizontal photo is pressed to the top of the page, leaving too much of space to the bottom with the "Close" button next to the upper right corner of a photo. In the other group of categories, a horizontal photo is aligned to center vertically, but the "Close" button is situated far higher. The "Close" button should be put in the upper right corner of the slideshow mode and the photos should be in the same place aligned to center vertically.

Expected result: In every category, a horizontal photo is aligned to center vertically, with equal distance to the top and bottom of the page. The "Close" button is situated always next to the upper right corner of the photo.
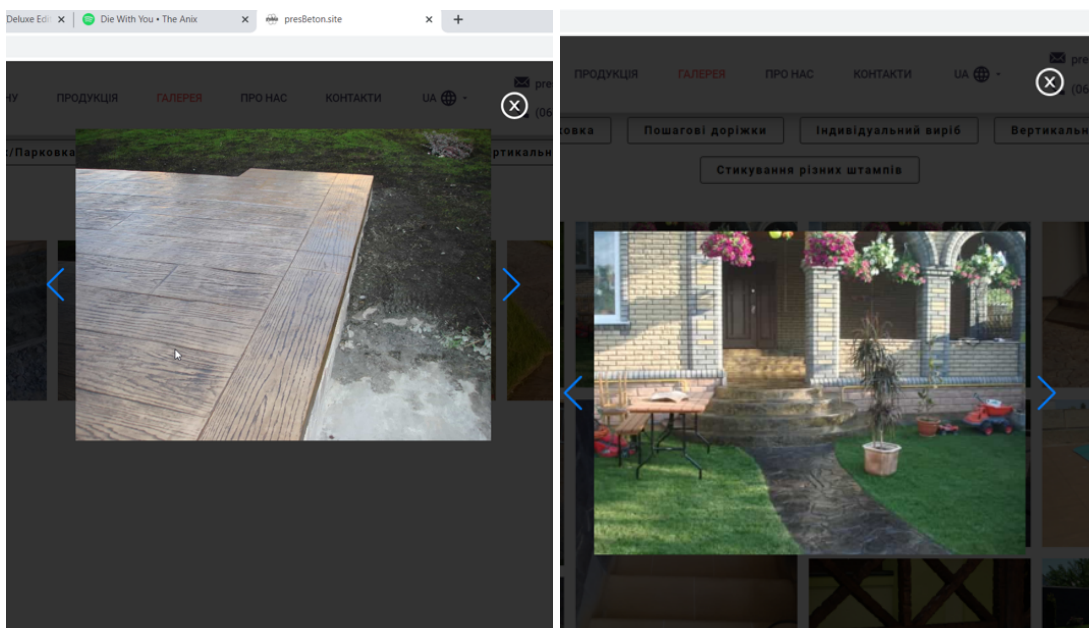

18: Chosen photo category in Галерея switches to "Всі" category after page refresh on any site version

Chosen photo category in Галерея switches to "Всі" category after page refresh on any site version
